

I understand that Sinclair Broadcasting is forcing it's local stations to preempt regular programming and air a 30 minute anti-Kerry documentary just a few days before the election. This is clearly not in the public interest but a partisan move to effect the outcome of the election by owners of the station . It does not serve the public good and does not give the Kerry campaign opportunity to respond.

It is my hope that you will censure Sinclair Broadcasting for it's misuse of the public airwaves.

Thank you.

Margo McNeil
